# Graham Gold House DJ profile

If you haven't heard his voice on Kiss 100FM then you must have seen his name on nearly every other flyer on the house and garage circuit, so we contacted Graham Gold for

## an Exclusive Interview.

**What is your real name & Age?**

My real name is Graham Gold & my age is most certainly classified.

**How did you get into DJing?**

I started off by playing Reggae & then I got into soul & from there I started to play Garage. I started buying House music in 1987, I was a resident DJ at Gullivers which was a Soul club, & I used to play George in there. I personally think Garage is nineties Soul! I am also a party person & I go out quite a lot, I see what tunes & styles of music are being played, and how the crowd react. When I play out I know when to play certain records & How to get the crowd going mad. Which I think is another important thing a DJ should be capable of.

**How long have you been a DJ?**

I have been DJing now for twenty years.

**How did you get involved with Kiss FM & has it helped your career?**

It has helped my career, I used to play on virtually every pirate in London, G.K.O. Horizon, Solar etc. But I never did Kiss FM. But in December 1988, some new laws were passed & if you played on a pirate station you would not be allowed to play on a legal one. So I came off the pirate airwaves on the 1st December 1988. One day I rang Gordon Macc of Kiss FM & after trying to raise enough money to start up my own legal station I realised that I didn't have the capital. I told him everything had fell through, so he gave me a job as a DJ on Kiss, that is how I got involved!

**Have you made any Records?**

Yes, I have a label called Peach recordings, I've released 3 Records and two of them have been top 40 hits. More recently "Going out of my head" & "Promises". What events do you personally put on?

I am involved with two events, G.I.S.M. & Peach.

**Where do you buy your records from?**

I regularly shop at City Sounds, Unity & T.A.G. Records.

**What other DJ's do you rate?**

I rate Sab Fontaine, Darren Pearce, Dave & Craig, Dave Dorrell (Because he doesn't play up his arse), that really gets my goat up when DJ's play up there arse & don't play for the crowd. I also rate Pete Waterman, Luv Dup, Judge Jutes & Graham Park.

**Do you like percussionists over over your set?**

I love working with them, I think people (as in DJ's) don't use them as well as they should.

**How often do you play out a week?**

I play out once mid-week, twice on a Friday, three on a Saturday & once on a Sunday, roughly about eight times a week!

**What do you think about the Jungle & Rave Scene?**

I think that Jungle is a carry on from the Hardcore, it's still very much a 15 to 18 situation. A lot of the old Ravers have now got into the House & Garage & go to clubs like Peach & The Leisure Lounge

**What do you think of the current House & Garage scene at present?**

I think that Jungle is the uplifting stuff, I don't like the moody clubs or deep house, it just seems to be all the same, but in saying that Matt Jam Lomont & Mickey Simms are very good at playing what they play.

**What's your advice for up & coming DJ's?**

Believe in yourself and work at it. When you've made it never accept that you've made it and keep on pushing! Don't disappear up your arse! (most important).

**Have you played abroad?**

Malta & Ibiza are the main places I've DJed abroad.

**When can our readers catch you on Kiss FM?**

Saturday 2pm - 2pm which is the chart show. Sunday 2pm - 4pm where I'm 70% play listed & hopefully I could do a specialist show where I have 100% free choice of what music is played. (One Day)

**What are your plans for the future?**

Just to keep doing what I'm doing & to carry on doing well. I would also like to play more up North, for people like Cream, Back to Basics, Fun etc..

**And finally any shoutouts Graham?**

Hi to me, Eric, Mark, Hamish, all the Kiss FM crew, all Peach, G.I.S.M. & Perfect Virtue Posse + everybody else who knows me! (Radio Joke)

Thanks very much for your time Graham.

## Jungle Mania - review

We arrived at The New London Astoria at about 1.00am and the outside was just rammed. This was said to be a roadblock and indeed it sure was!! The queue was still long and half way round the building, so it looked like there was going to be plenty of disappointed faces. We waddled into the venue with a mad push and shove and took our places at the back of the club just by the bar. I had a look round to see what moods people were in, and I was amazed to see how good the atmosphere was as everyone was just raring to go. The music was the main attraction for everyone being there and the crowd were loving every minute of it. When tracks like "Warning" were played the whole place just went crazy and the atmosphere went wild. When it was time for Kenny Ken to do his set, the crowd gave him a massive wild cheer as they knew they were in for a good session. The Jungle Sound Clash Champion himself proved that he still is "King Of The Jungle". The lighting was just out of this world with wicked lasers that put a great effect on the whole of the venue and its people. Then after a couple of hours dancing we were then introduced to two great performances.

First was the mad terrorist himself "Ray Keith", and then UK Apachi and Shy FX with barking dancers to kill. The two men stole the night and lived up to their names as they sure were the Original Numbers of the night.

After a while we went upstairs to The Keith Moon Bar where DJ Rap was doing her set. This was the first time I had ever experienced her great skills and believe me was well impressed. We hung around for longer than what we expected too as her set was just "SHOCKING". After a while we went back to the main arena to hear the sets of the remaining DJ's.

Overall we had a good night although it would have been better to have got there earlier and got in quicker.

The best sets of the night were by "Kenny Ken" "Jumping Jack Frost" and of course "DJ Rap" herself.

10/10 Review: Sarah M

## Jungle review

- Hastings Pier Saturday 15th -

The Promoters of a successful Jungle night known as Unity decided to chance their luck with an event called 'Juice', being more on the Happy Hardcore tip they had DJ's playing like Sediction, Dougal, Sy, Vibes, Swan-E, SS & Grooverider, who all played happy & uplifting music. The sound system was good & for their first happy hardcore event they pulled a wicked crowd & everything that was on the flyer was there!!

Massive respects to Dean & Jason for putting on a wicked party & if you see the flyer for there next event, you will not get in if you are wearing a thong or a flasher mac or if you are a wall???

Highly recommended in true south coast style!

10/10 Review: Rude Boy Roy

## DJ SY - Hardcore DJ Profile

*As one of the most respected DJs on the Hardcore circuit, we thought it was an absolute necessity to feature him in our latest magazine.*

**What is your real name & age?**

My names Simon & I'm 25 years old.

**How did your DJ career start off?**

When I moved from London to Nottingham I played in a wine bar(1989), I used to spin Soul, Hip-Hop & House - The bloke who owned the wine bar opened a nightclub and had me there as a resident just as the ravescene was taking off. The music policy of the club was going more & more towards House & then it progressed into Hardcore. An agency called Dyn-o-mix picked me up & since then I've been all over the place & my career has really took off!

**What made you want to become a DJ?**

I was always messing about with my decks at home - I always listened to pirate radio stations like L.W.R & I was well into music & the combination of the above just got me into DJ-ing.

**Have you played on any Radio stations?**

I used to play Rave FM in Nottingham! Massive respect to all of the crew.

**Have you a favourite place to play?**

I have just started to pick up work in London which is good - I like playing at Dreamscape, United Dance, Die Hard, Leicester, Fusion, Club Kinetic & World Dance. They are my favourites at the moment!

**What do you think of the music at the moment?**

I think recently the music has got ten times better. About six months ago the music was shit. All the producers like myself, Slipmat, Seduction, Vibes & Daugal have been churning out some wicked tunes which has helped the happy hardcore scene become more appealing!

**Were you a Hip Hop DJ before you played Hardcore due to your scratching ability?**

I used to play Hip Hop when it first came out in England & I learnt how to scratch then! I used to be a drummer & I'm used to playing along with music. This is what I do when I scratch up a record, rather than cut it up, I make the scratching sound like part of the record.

**What DJ's do you rate?**

Any DJ that doesn't play for himself & looks at the crowd and judges what sort of music they like & plays for the crowd.

**Do you like working with MC's?**

It doesn't really bother me as long as they work with me and not on their own. There are two many MC's who work on their own.

**What Record labels do you rate?**

Hectic, Knife Force, Formation to name a few. The rest of the tunes I get sent are on plates or on white - so I don't know what labels they are going to be on.

**Where do you buy your records from?**

Dance 2, Guildford & Wax City, Croydon.

**What is the biggest event you've ever played at?**

Fantazia, Bournemouth.

**What's been your most embarrassing moment as a DJ?**

I was playing at the Eclipse, Coventry & I started of a Record on the wrong speed. It went on for about 2 minutes - I wasn't listening to the record and everyone was looking at me as if to say "What are you doing?" I was well embarrassed!!

**Have you made any of your own music?**

"Are you ready?" is coming out soon and I've done 8 more tunes which are waiting to be cut!

**What was your previous occupation before becoming a DJ?**

When I left University I worked in a builders merchant before becoming a full time DJ.

**What are your plans for the future?**

The production of music is going to become big time & we want to get into remaking tunes - Also carry on being a DJ.

**And finally your shouts?**

# Break the Bank - Innersense

## Saturday, 8th October

The Laserdome has given us some outstanding nights over the last two years, its unique combination of bubbling, mood-free atmosphere, top DJ line-ups, new improved decor and 50K sub bass sound system make it worthy of the accolade "Best Hardcore Club". In fact this year's Beach Party in the summer and the 2nd Birthday party in September set new and higher standards. And then there was Break the Bank Night...

It started with a roadblock, before the club even opened there were queues of eager party-goers right around the block, and at a quarter to one in the morning Security had to declare the house full, even the guest list was put on hold! The hundreds of people that were unfortunately turned away will know to arrive earlier in future "to avoid disappointment" ... as the flyer quite rightly points out!

By twelve o'clock the main arena was hot, sweaty, and most definitely rocking, and the balcony, tunnels and other areas were so packed that you couldn't help but get to know people a little more intimately.

The party was in progress and there was no holding back. As usual, security did an excellent job in keeping what, if any, trouble to a minimum. Personally I didn't see any, and considering the head count, that was quite an achievement. The crowd were, to say the least, up for it and the atmosphere was as electric as the national grid.

Big respect should go to the DJ's on the night. Probes stood in for the renegade Ray Keith, who was attending to some last minute business in Italy, with the rest of the line up promised - Gachet, Kenny Ken, Fabio, Grooverider, Brockie & Randall. They all excelled themselves, much to the appreciation and warmth of the musically educated crowd. Respect should also go out to the one and only MC Reality (I don't know how he does it week in week out?)

Three o'clock saw the novel "break the bank" theme in full effect - hundreds of balloons were released from the roof in the hardcore room, some had paper inside which entitled the bearer to nearly £1000 worth of prizes. Heaps of fighters, free drinks and gifts of £25 were won, and two lucky girls won the star prizes - £250 cash and a years free entrance to Innersense. After the frantic balloon bursting ceremony, the presentations of the star prizes to the winners by Innersense's foundling father and "Godfather" (or should I say Don?) Ryan, and a bit of a breather, Fabio pumped the music back up and it was business as usual. The Donceletoor stayed rammed with a heaving mass of bodies until the lights went up around 7am.

The Production was as usual, superb, the sound crisp, the facilities excellent and the vibe simply vibrant. Congratulations to all involved but especially Ryan, Sonja, Maria, Fish, Simon and the Final Touch 911 Security, Graham, Pam and the Warlight Security, and above all the lively Innersense crew who helped make the night another one to remember. All I can say is that I'm looking forward to Halloween and I dare say it, the Christmas and New Year Bashes.

Have you heard about INTA? Well if you haven't it's too bad 'cause I'm not telling anyone & that's a fact! (Confused? OK we will try to explain!) on a Thursday night we were told that if we went to West Croydon we would have a wicked night out - pull some birds, get drunk (we told them that we were not like that here at the Scene and we were only interested in serious relationships!) - but after being persuaded by Flux & Danny we were led into Temptation by the INTACREW!

#### Scene INTA

**How was INTA created?**  
Basically - we have all known each other since school & about 2.5 years ago we decided to form a crew called INTA - which stands for 'I'm Not Telling Anybody' - when we all got together we all clicked & got on well but we are not saying why & how we clicked that is why INTA was formed! There are no bosses - we are all equal - the people behind it are Paul, Danny, Peter, Flux, DJ Fabio, DJ Grooverider, Killer, Face, DJ Bailey - there are others who we hang out with - but the people mentioned above are the INTA crew!

#### Scene INTA

**What are your plans for INTA?**  
At the moment we are sticking to the clothing - but we are going to make music as well & we want to put on a Rave - but it would have to have the old vibes - you could go out in your pyjamas - jump up and down for 8 hours and no one would say anything to you! You could go up and talk to whoever you like and have a good conversation - make lots of new friends.

#### Scene INTA

**So what are your different jobs in INTA?**  
Well Grooverider and Fabio push INTA on the music side - I do the MC part and the others do the clothing part! It's our way of bringing good vibes back INTA the Scene!

#### Scene INTA

**Who designed the INTA logo?**  
I sketched it out in rough on a tissue box and after a few modifications we decided to use it! We want to make INTA UK wide and then world wide - with records, parties, and of course clothing! Watch out for that! Also our new catalogue is coming out soon - watch out for it - it is not aimed at solely the Rave Scene it is aimed at anybody, any age from any walk of life!

#### Scene INTA

**What styles of music do you like?**  
I like anything from Hardstep to House to Hip Hop to Soul - I like all types of music - if you could see my record collection you probably would never talk to me again!! **Mc Flux** I'm INTA Hardstep at The Moment - watch out for that it's going to be massive! **Paul** I am well INTA Hard-House & when Grooverider first started out we used to play a wicked Jazz set! **Peter** I'm INTA anything you can dance to!

#### Scene INTA

**Finally chaps your shouts?**  
The Oxford Babes, Mickey INTA - (Natas, Murray, Dreamscape, Frost, Fabio, Rider, MC Five "O" (the Speech Master), Mc Navigator, De Underground with there well known West Ham Goalkeeper! Kool FM, a massive shout out to the original Hard Step creator Goldie! Rupert, finally a funny but true story from the INTA crew: We were going to dance trance at the Que Club, Birmingham and our car broke down on the motorway! We were not in the AA - so we were stranded - a police car came along - we all thought Allol Allol they went through with the routine - we had 2 lovely looking girls with us who put on the charm and after a few minutes we talked them into towing us the rest of the way - so we jumped in there Police car & on the way the copper said "Do you Puff" - we all denied it - but he kept saying "Come on, you must puff" - eventually, we admitted we did & that we had some on us - the copper got us to skin up & we had about 3-4 joints with these two policemen before they dropped us off! This has got to have been one of our best experiences ever - the police are not all bad!! Love from INTA crew

The Scene says: The INTA crew have definitely got the right attitude with everything they are trying to achieve give them your support - buy there jackets and pull lots of girls or if your a girl - lots of boys - they are definitely clothes to get INTA. Maximum respect to Paul, Danny, Peter & Flux - thanks for your time! **Cheers Terry Turbo.**  
To contact the INTA crew ring any of the chaps on (0836) 662649 this is the information centre!

# Helter Skelter

## - review -

Tonight was the night for Helter Skelter at the sanctuary in Milton Keynes

After visiting their last three parties & enjoying every one we couldn't wait to get in there! After a long queue we eventually got into the venue, & after an hour or so we decided it was well worth the wait. What a production. What a lightshow! The DJ's in all played to a high standard & set's of the night undoubtedly went to DJ Hype, DJ Randall & DJ Sy for making the crowd go mental! The sound was loud and the new cooling system was in full effect

which in my opinion made a big difference to the party! The security at the sanctuary were very thorough on the searches on the way in, some people have moaned about this, but remember this. If they didn't search people properly The sanctuary would not be a safe place to rave in, so they are only doing it to make sure you have a trouble free night. They are only doing their jobs.

The Sanctuary is not closing down & we have spoke to David from the Helter Skelter organisation & he informs us that his next event is on the 25th November, Watch out for that. We can't wait. Another safe & friendly night bought to you by the Helter Skelter Crew. 10/10

## HECTIC RECORDS - profile

After an hours drive to Portsmouth (or Pompey) as its known on the south coast, we went to the studio of Hectic Records, one of the newest & most successful happy hardcore labels around at the moment, here is how the story goes:

SCENE: How did Hectic Records start?

HECTIC: It was DJ Supreme who first made a Track with DJ Ramos & we put it under Fusion Records & when we looked around we found that there was already a record label called Fusion, so we changed the name to Hectic Records. Hectic was formed in October '93 we've been going just over a year now.

SCENE: Who are the people behind Hectic Records?

HECTIC: Chris & Geoff, we also run the rave "Fusion" as well.

SCENE: Where does the name Hectic come from?

HECTIC: It was the name of a production company we had & we used to do a night mix tape called Hectic.

SCENE: Who influences you musically?

HECTIC: DJ Drud & any DJ which plays on an uplifting & happy tip

SCENE: What other sorts of music do you listen to?

HECTIC: All DJ mix tapes from our do's, Techno, Hardcore, Jungle, Trance, Garage & other than that we listen to the radio

SCENE: What's been your best selling record to date?

HECTIC: Our first tune by Ramos & Supreme "Journey" + "Crowd Control" has done over 4,000 copies, but I think that No 6 Hectic, the remixes by DJ Slipmix has now outsold our 1st release

SCENE: What sort of music do you put out?

HECTIC: On our label its purely happy & uplifting Hardcore

SCENE: Where does your logo come from?

HECTIC: The face actually comes off an easure membership card, [remember them? - why won't they tell us who the owner of the membership card is?] Our printer then played around with it and came up with our finished logo

HECTIC: It would be nice to be big in a different country, Its going well in this country & we'd like to establish Hectic as one of this country's leading Happy Labels

SCENE: Why do you think the label has been successful?

HECTIC: I think it has been successful as there is a gap in the market & a lot of labels have gone on the Jungle Tip, where as we have continued to produce happy music

SCENE: Your shout?

HECTIC: All DJ's + MC's + Promoters, Producers, especially all Fusion Records Crew & everyone who knows us!

**One of the largest specialist shops on the South Coast - Fusion Records has been going strong since the summer of 1993. We spoke to Vinylgroover who works there full time.**

**Scene Where did the name Fusion come from?**

V.G. The name is from a rave called "Fusion", which Chris & Geoff run. When the shop was first opened it was bought by the Fusion boys & was sold to Paul Ramos recently, so they could concentrate more on the Raves.

**Scene What types of music do you sell in the shop?**

V.G. We stock Happy, Breakbeat, Techno & Jungle.

**Scene Who works in the shop?**

V.G. Ramos, who owns the shop, Carl - DJ Jammin, Vinylgroover & Tony who does the clothes out the back.

# Marvellous Cain

## Jungle/Hardcore DJ & Producer

After a short trip to Basingstoke we visited the house of a rather marvellous chap known as Mr Cain! As we walked up to his room we were overcome by a funny green smell, when he opened his door we found out why he is called The Green Man.

What is your real name & Age?

Marvin and I'm 26 years old.

Why did you want to become a DJ?

'Cause I wanted loads of money & loads of girls - I'm not interested in the music - just the women & the fast cars. Marvin 'Marvellous' Hogler - the boxer was the main reason I was called Marvellous & also because I'm so marvellous [in a deep voice!] - any girl will tell you that!

(We all erupt in fits of laughter!) - [This guy really has got a sense of humour! - Editor]

When was your first break?

In-Ter-Dance at Sterns in 1990 was my first proper break - other than that I was playing at free parties & at The Caribbean Club in Basingstoke. I've been DJ-ing for 5½ years.

What records have you made?

The Hitman which is doing well on IQ at the moment & I've got Dub Plate Style & The Crash coming out on Suburban Base Records. We are also working on The Dasher which is coming out on Back 2 Basics soon! & loads & loads of other things!

What was your occupation before becoming a DJ?

I was a layabout! I got up about 12pm & went to bed [lol] When I did get a job - I was a dodgy ceiling fixer &

What's been your most embarrassing moment?

Passing out in The Paradise Club! It was like an oven in there. I was sweating & I got a really bad headache - next thing I knew I had all these people picking me up off the floor!

What's been your funniest moment?

I was playing at a club & there was a couple of Asian geezas dancing at the front of the stage & the MC said something in Asian "Devere Marde Foojee" or something & they all turned around & started shouting "Devere Marde Foojee" at the tops of their voices! Seriously funny!

Do you prefer DJ-ing or making music?

I like doing both as much as each other!

What's been the biggest event you're played on?

One Nation Valentines Ball - February 1994.

What styles of music can you play?

I play Jungle, Drum & Bass or Happy - I play for whatever I'm getting paid to play.

What other DJs do you rate?

Victor Melkew A.K.A DJ Hyper, Brookie, Randall, Dolman A.K.A. Mickey Firm; Dubplate Boy A.K.A. Darren Jay & Dr. S. Gochet.

What MC's do you like working with?

When I play Jungle - MC Delt & MC Stevie Hyper D. When I play Happy - MC Free & Easy. They are my favourites!

Where do you buy your music?

Lucky Spin, Bookie Times, De Underground & I spend a lot on Dub Plates.

What are your plans for the future?

My plans for the future are to be the richest man in the world, have loads of girls & set up my own studio & label. Have a couple of kids with any girl - I need to be broken in again - I'm hungry! I haven't had nothing for a couple of months - and girls that are reading this - I want you - call me now!

And finally Marvellous your shout?

Auntie Irish [she's sexy], Hyde, Randall, Gochet, Brookie, maximum boost to the Spangly Bantam - don't forget them Kembucks Right!, Tony, Kevin - what's your name again? Driver - Tony, Danny Dollars from Sub-Bass, all The Hydran crew & I love my mummy! Big up to Marvin's cat - rest in peace! I will always remember you fluffles - love Marvin.

To book Marvin or to arrange a hot date [sorry girls only] ring the Marvellous Hotline ask for Marvin
